

# YA-MAN's Internationally Popular RF (Radio Frequency) Beauty Device Series Recorded Accumulated Shipment Over 2 Million Units <sup>\*1</sup>

08, October 2019

YA-MAN's highly popular RF beauty device series, which are equipped with Radio Frequency generating function, recorded accumulated shipment over 2 million <sup>\*1</sup>.

<sup>\*1</sup> The research conducted by YA-MAN, during the period of October 2013 ~ the end of September 2019.

## **【RF Beauty Device Series】**

RF (Radio Frequency) is a popular beauty treatment which is also offered in professional esthetic salons. RF reacts to moisture and warms up the skin from deep within<sup>\*2</sup>.

It is different from a conventional thermal heater which warms up your skin only on its surface. RF warms up the skin deeper<sup>\*2</sup> to make it more elastic and supple skin.

YA-MAN's very first model of RF beauty device series is 'Platinum White RF', which made its debut in 2013. It offers thermal function, cleansing with ion derivation, moisturization with iontophoresis, stimulating mimic muscle with EMS and pore tightening with cooling. It became very popular because of its multi functions and subsequently known as a 'Photo PLUS' series. This is our leading series which continues to release new models with additional LED light treatments.

YA-MAN developed unique 'double ring electrodes' to enable highly functional RF treatment at home, which used to be a special

treatment at beauty clinics and professional esthetic salons. The technology acquired patent\*<sup>3</sup>.

As a leading company in the field of home care RF beauty device, YA-MAN offers diverse lineup of products including body care products and rollers.

\*<sup>2</sup> Up to keratinous layer \*<sup>3</sup> Patent No.: 6212608

Some examples of YA-MAN RF Beauty Device

Platinum White RF / Photo PLUS EX eye pro / Cavispa RF Core  
/ Tornado RF Roller

We deeply thank to many customers for their long lasting support.

We will continue to realize people's aspiration to be beautiful with our latest technology and innovative ideas as a professional beauty pioneer.
